## Advanced Life Support Unit Equipment Standard Compliance Checklist 2007

Agency Name \_\_\_\_\_ Unit # \_\_\_\_\_

Date of Inspection \_\_\_\_\_ Inspector \_\_\_\_\_

Standard #	Standard Description	Optional	Required	Present	Compliant	Deficient
BLS 1	Unit Meets NYS Minimum BLS Equipment Standards for Certification, per latest Part 800.		√			
BLS 2	Adult-sized MAST suit, triple-chambered, with gauge(s) OR relief valves.	√				
BLS 3	Albuterol	√				
BLS 4	Epinephrine pen	√				
BLS 5	Glucometer with test strips & lancets	√				
BLS 6	• Aspirin, Bottle, Chewable 325 or 81 mg./tab.		1			
BLS 6	Hemostatic Gauze	√				
ALS 1	Portable monitor-defibrillator with the following:		1			
	• Operates on batteries, independent of outside power source.		√			
	• Monitors patient's Lead II ECG via manually-held paddles (Quick-Look <sup>®</sup> ), and/or self-adhesive defibrillation electrodes.		√			
	• Cardiac monitoring in operator's manually-selectable choice of standard limb leads I, II, and III, via a standard three- or four-electrode patient monitoring cable and standard (dot) monitoring electrodes.		√			
	• Continuous and/or intermittent real-time recording of the patient's ECG on paper.		√			
	• Manual defibrillator.		√			
	• Hand-held defibrillation paddles AND/OR		√			
	• Self-adhesive defibrillation electrodes		√			
	• Manually-actuated, synchronized cardioversion		√			
	• Interconnectivity with biotelemetry transmitter		√			
	• External transcutaneous pacemaker		√			
	Make & Model of Monitor Defibrillator:					
	Month & Year purchased:					
	Purchased: <input type="checkbox"/> New <input type="checkbox"/> Used					
ALS 2	Sets of adult-sized, self-adhesive, disposable defibrillation electrodes OR Sets of defibrillation pads (for hand-held paddles) OR tubes/bottles of defibrillation paste or gel.		2			
ALS 3	Sets of pediatric-sized self-adhesive defibrillation electrodes <b>OR</b>		2			

SUSQUEHANNA REMAC ADVANCED LIFE SUPPORT EQUIPMENT STANDARD CHECKLIST

Standard #	Standard Description	Optional	Required	Present	Compliant	Deficient
	Set of pediatric-sized adapters for hand-held paddles.		1			
ALS 4	Sets of self-adhesive, disposable external pacing electrodes (may be same as ALS 2, if unit uses combination electrodes)		2			
ALS 5	Spare monitoring cable for monitor/defibrillator (not required if monitor has hands-free defib.)		1			
ALS 6	ECG monitoring electrodes.		12			
ALS 7	Intravenous Fluid and Administration Supplies:					
	• 250 ml. Plastic bags of normal saline		2			
	• 100 ml. Plastic bags of normal saline		2			
	• 500 ml. Plastic bag of normal saline		2			
	• 1000 ml. Plastic bags of Normal Saline		4			
	• Macro drip Primary IV tubing sets		4			
	• Microdrip Primary IV tubing sets		4			
	• Pneumatic pressure infusers		2			
ALS 8	IV Catheters, Needles, and Syringes:					
	• #14 gauge over-the-needle IV catheters		4			
	• #16 gauge over-the-needle IV catheters		4			
	• #18 gauge over-the-needle IV catheters		4			
	• #20 gauge over-the-needle IV catheters		4			
	• #22 gauge over-the-needle IV catheters		4			
	• #24 gauge over-the-needle IV catheters		4			
	• #18 gauge steel hypodermic needles		3			
	• #21 gauge steel hypodermic needles		3			
	• #25 gauge steel hypodermic needles		3			
	• #16 bone marrow needles		2			
	• #18 bone marrow needles		2			
	• 60 ml. Catheter-tip sterile disposable syringe		2			
	• 20 ml. Luer-lock sterile disposable syringe		3			
	• 10 ml. Luer-lock sterile disposable syringe		3			
	• 5 ml. Luer-lock sterile disposable syringe		3			
	• 3 ml. Luer-lock sterile disposable syringe		3			
	• 1 ml. Luer-lock sterile disposable syringe		3			
ALS 9	Mobile vehicle radio, at least 25 watts, with:		1			
	• Transmit/receive on 155.340 MHz		√			
	• Transmit/receive on 155.400 MHz		√			
ALS 10	Disposable surgical face masks <b>OR</b>		12			
	High-Efficiency Particulate Air (HEPA) respirator for EACH crew member on vehicle		1			
ALS 11	Disposable, fluid-impermeable medical gowns		4			
ALS 12	Endotracheal Intubation Equipment:					
	• Miller #0 lighted laryngoscope blade		1			
	• Miller #1 lighted laryngoscope blade		1			
	• Miller or Mac #2 lighted laryngoscope blade		1			
	• Miller or Mac #3 lighted laryngoscope blade		1			
	• Miller or Mac #4 lighted laryngoscope blade		1			
	• Laryngoscope handle with "C" batteries		1			
	• Laryngoscope handle with "AA" batteries		1			
	• Adult Magill-type forceps		1			
	• Pediatric Magill-type forceps		1			

SUSQUEHANNA REMAC ADVANCED LIFE SUPPORT EQUIPMENT STANDARD CHECKLIST

Standard #	Standard Description	Optional	Required	Present	Compliant	Deficient
	• 2.5 mm ID uncuffed endotracheal tubes		2			
	• 3.0 mm ID uncuffed endotracheal tubes		2			
	• 3.5 mm ID uncuffed endotracheal tubes		2			
	• 4.0 mm ID uncuffed endotracheal tubes		2			
	• 5.0 mm ID uncuffed endotracheal tubes		2			
ALS 12 (continued)	• 6.0 mm ID cuffed endotracheal tubes		2			
	• 7.0 mm ID cuffed endotracheal tubes		2			
	• 8.0 mm ID cuffed endotracheal tubes		2			
	• 9.0 mm ID cuffed endotracheal tubes		2			
	• Adult-sized disposable wire stylets		2			
	• Pediatric-sized disposable wire stylets		2			
	• Infant-sized disposable wire stylets		2			
	• Laryngeal Mask Airway- disposable- small		1			
	• Laryngeal Mask Airway- disposable – medium		1			
	• Laryngeal Mask Airway- disposable – Large		1			
	• Box Small non-sterile exam gloves		2			
	• Box Medium non-sterile exam gloves		2			
	• Box Large non-sterile exam gloves		2			
	• Box latex free gloves, any size		1			
	• Pairs of splash-protective-type goggles		2			
	• Single-use packets of water-soluble lubricant		4			
	• <b>OR</b> multiple-use tube of water-soluble lubricant jelly		1			
	• Commercial ET tube securing devices		2			
	• Device to verify tube placement -esophageal bulb or colormetric device.		1			
	• Rolls ½" OR 1" CLOTH adhesive tape		2			
	• #10 french sterile disposable suction catheters		1			
	• #12 french sterile disposable suction catheters		1			
	• #14 french sterile disposable suction catheters		1			
	• 10 ml. Disposable syringes without needles		2			
	• Portable pulse oximeter ( for those agencies carrying narcotics and /or Etomidate)		1			
ALS 13	Drug Inventory as follows:					
	• Adenosine 6 mg/2 ml.		5			
	• Albuterol premix 0.083% (3 ml.)		5			
	• Amiodorone, vial, 150mg (3ml)		3			
	• Aspirin, Bottle, Chewable 325 or 81 mg./tab.		1			
	• Atropine Sulfate 1.0 mg/10 ml.		5			
	• Benadryl 50 mg./1 ml.		2			
	• Charcoal, Activated 50 gm/bottle		2			
	• Dextrose 25% 2.5 gm/10ml		1			
	• Dextrose 50% 25 gm./50 ml.		2			
	• Diazepam 10 mg./2 ml. (if authorized)		2			
	• Diltiazem 25 mg./5 ml., may sub Lopressor		2			
	• Dopamine (premixed) 400 mg./500 ml.		1			
	• Etomidate 2 mg/ml (60 mg total available) (If authorized)		2			
	• Epinephrine 1:1,000 1mg./1 ml		4			
	• Epinephrine 1:1,000 30 mg./30 ml.		1			

SUSQUEHANNA REMAC ADVANCED LIFE SUPPORT EQUIPMENT STANDARD CHECKLIST

Standard #	Standard Description	Optional	Required	Present	Compliant	Deficient
	• Epinephrine 1:10,000 1 mg./10 ml		10			
	• Glucagon 1 mg. unit		2			
	• Glucose paste (tube)		1			
	• Lasix 40 mg./4 ml.		4			
	• Lidocaine (premixed) 2 gm./500 ml.		1			
	• Lidocaine 100 mg./5 ml.		3			
	• Lopressor, 1-5 mg - sub for Diltiazem- 10mg	√				
ALS 13 (continued)	• Magnesium Sulfate 1 gm./2 ml.		2			
	• Morphine Sulfate 10 mg./1 ml. (if authorized)		1			
	• Narcan 2 mg./2 ml.		2			
	• Nitroglycerine 0.4 mg/tab, 25 tabs/bottle, <b>OR</b> metered-dose sublingual spray, 0.4 mg/spray or 2% Nitro paste – 1 inch topical		1			
	• Nitrous Oxide	√				
	• Sodium Bicarbonate 50 mEq/50 ml.		2			
	• Solu-Medrol 125mg mix-o-vial		2			
	• Tetracaine unit dose (optional)	√				
	• Thiamine 100 mg./ml.		1			
	• Zofran 4 mg	√				
	• Toradol 60mg	√				
ALS 14	Small-volume nebulizers for Albuterol		2			
ALS 15	Nasogastric Tubes		2			
ALS 16	Broselow Pediatric Resuscitation Tape		1			
ALS 17	Tetracaine / morgan lens kit (optional)	√				
ALS 18	Copy of current Regional ALS Protocols		1			
ALS 19	CPAP – Agencies to acquire by 12/31/08		√			
ALS 20	Dual Lumen tube	√				
ALS 21	Mechanical IO gun/drill	√				
	All ALS equipment and supplies clean, sanitary, and/or sterile (where appropriate)		√			
	Drugs, sharps, and syringes securely locked in fixed cabinet(s) in vehicle		√			

The above required list does not preclude stocking or carrying any additional equipment or supplies as approved by NYS and Susquehanna Regional REMAC;

**Certification:** On this date, I have personally conducted an inspection of the ALS unit identified above, and hereby certify the unit to be:  In Compliance  Not in Compliance] with the Susquehanna Regional EMS Minimum Equipment Standard for ALS Units
